SMARTBIZ NETWORK RESILIENCE

When connectivity counts for your business, SmartBiz Network Resilience is not just a backup plan - it's an essential component of your business strategy. Keep your doors open to opportunity 24/7 with a network that's as resilient as your ambition.

- **Automatic Failover:** Your business network will automatically switch to a backup cellular or wired connection if your internet connection goes down.
- **Seamless Restoration:** When the internet connection is restored, your network will seamlessly return to the primary internet connection.
- **Real-Time Alerts:** You will be kept informed with instant notifications during failover and restoration events.
- **Easy Setup:** With the CommandWorx app you'll have the ability to effortlessly configure failover settings.
- **Continuous Operations:** Network resilience ensures your business is always connected, maximizing uptime and productivity.

ENHANCED GUEST NETWORK CAPABILITIES

Unlock the full potential of your customer or guest WIFI. Setting up and managing your guest WIFI portal can be done easily through the CommandWorx app.

- **Personalized Splash Pages:** Tailor the look and feel of your WIFI landing page to match your brand identity.
- **Enhanced Network Isolation:** Keep your business operations and guest networks separate and secure.
- **Network Security & Content Restrictions:** Protect your guests and your business from malicious online activities.
- **Scheduling Network Access:** Align WIFI availability with your business hours to optimize resource use.
- **Marketing Insight Collection:** Easily capture and utilize customer data for targeted promotions and communications.
